Responded to an animal problem call via telephone. I attempted contact with RP regarding her complaint of a raccoon which returns to her porch each night while she is sitting on her porch enjoying the evening air. Due to the fact that the RP did not answer her telephone, I did leave her a message on her voice mail, providing her with my contact information should she have questions, or additional concerns. I did not receive a return telephone call from the RP.

Nothing further. WH200

REsponded to the area report by the RP to have two white labs running at large after having spoken with the RP via telephone. During my telephone conversation with the RP she stated that it had been her daughter who had reported the dogs having attacked their chickens, but that she (RP) was aware of who the dogs belong to.

After receiving the dog owner information I did contact the owner of the dog who informed me that neither the three of his dogs had been off of their chains that morning, nor for quite some period of time. After having spoken to this dog owner I did drive to his residence, where I did not his three non-lab dogs to be securely chains in the back yard of the residence.

After checking for any dogs running at large, matching the description of those dogs provided by the RP, and having located none, I did contact the RP notifying her of my findings. Additionally, I did advise the RP to contact the Sheriff's Office in the future if she had any additional information or a repeat occurrence by those same or any other dogs.

Nothing further WH200

Responded to the area regarding a dog at large, which was reportedly aggressive toward people.

While in the area I was contacted by Deputy Rhoades, who stated she had been through the area and had no sighting or visual contact with any such dog as described by the RP.

Having been to the residence of the dog owner in the recent past, I found the dog to be extremely non-aggressive, and find it difficult to understand today's report by the RP stating otherwise. WH200
