Responded to the location reported by the RP regarding a large cougar which was walking around in his back yard. While responding to the location I requested dispatch to make contact with the Division of Natural Resources (DNR) regarding the cougar and to advise me as to the preferred protocol to be followed. In addition, I requested dispatch to advise the RP to stay inside his home with his family members while also advising those of his neighbors he could contact.

After arriving on scene the cougar was no longer visible either by the RP nor those at the scene. While on scene I received a telephone call from an agent of

DNR who advised me that he would be contacting several biologists with the Division as to the preferred procedure to follow and that he would be responding to the scene if so directed. I advised the DNR agent that we would be clearing the scene, based on the absence of the reported cougar. WH100

I was dispatched to a fraud detail. Reporting party wanted to report a phone scam. The number 800-471-2086 called saying they were the reporting parties grandson (and even gave the grandsons proper name), stating they were in jail and needed bail money wired to them. The reporting party was informed that this is a very common scam. The reporting party stated they did not give any money to the caller and stated they wanted to report it being they have received this call before. I advised to never give money over the phone due to the many scams out there. I made contact with the number and it states it's a Special Olympic donation line and that they will call you back in the next couple of days. WH200
