On 6-9-12 I responded on a motion alarm. There was nobody at home but the homeowner's daughter responded to check the house. We found an unlocked but closed door on the back of the house. Deputy Sorensen and I checked inside the house, at the homeowner's request, and we did not find anyone inside. The daughter did not find anything out of place inside either. WH200

J (UC)

Address:

On 6-24-12 the Woodland Hills Fire Department reported that a house had flooding going on inside of it. I arrived at the same time as the residents and the fire department had already entered the home through an unlocked door, found that a toilet was flooding and they shut the water off. The resident was shocked that his house was unlocked. He checked the house and told me that everything seemed fine other than the toilet flooding from an apparent mechanical problem. WH200
